FEB 27
Grace Joshy (NCEPH, ANU)
Development, validation and calibration of mortality risk prediction models: results from 123,697 middle-aged and older Australian men

MAR 27
AGM & Conrad Burden (MSI, ANU)
Branching process in Population Genetics: Mitochondrial Eve and genetic mutations

MAY 1
Grace Chiu (RSFAS, ANU)
Longitudinal modelling of crop root physiology as a breed-specific spatial response to environmental conditions

MAY 29
Stephen Haslett (SCU, ANU)
Measuring nutrition, health and poverty in small areas – how low can you go? A comparison of alternative methods for poverty estimation in developing countries

JUNE 26 (Joint meeting with Canberra Data Scientists)
TBA

JULY 31
Peter Caley (Data61, CSIRO)
Black cockatoos in WA -- Uncertainties in Inference

NO MEETING IN AUG (Foreman lecture)
Lecture held as part of ISCB-ASC Conference 2018
http://iscbasc2018.com

SEP 25
Brent Henderson (Data61, CSIRO)
Cumulative risk assessment: The opportunity for statistical science with lessons from a large cumulative environmental impact assessment

OCT 30 (Young Statisticians event)
Winner of Dennis Trewin prize

NOV 27 (Knibbs lecture)
TBA

Talks are generally on the last Tuesday of each month around 5:50pm, with refreshments 5:15pm-5:45pm and dinner after the talk. Dates and times are tentative and subject to change; please see http://www.statsoc.org.au/branches/canberra/can-branch-meetings/ for details regarding each event as they come. Non-members are welcome to attend!

To join the SSA and receive email notifications regarding upcoming events, please see http://www.statsoc.org.au/membership/.
