

Frontiers in Biostatistics:

Celebrating 10 years of ViCBiostat

Tuesday 7th June, 2:00-5:30pm
Walford & Cox Meeting Rooms, MCRI
Networking reception to follow

Come and hear an overview of recent advances in contemporary areas of biostatistics, with focus on the cutting-edge methodological research being conducted within this collaboration. This event, chaired by **Prof Julie Simpson** will feature:

Perspectives on biostatistics from senior leadership

Kathryn North
Director
MCRI

Jane Gunn
Dean, Faculty of MDHS
University of Melbourne

Sophia Zoungas
Head of SPHPM
Monash University

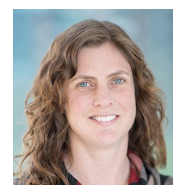

Advances in three cutting-edge areas of biostatistical methodology

Margarita Moreno-Betancur and team
The causal revolution

Jessica Kasza and team
Much ado about clustering in trials

Katherine Lee and team
Mind the Gap: Advancing methods for missing data

Insights into the key focus for biostatistics now and in the future

John Carlin
Overview of ViCBiostat achievements

Emily Karahalios
Collaboration, methods & teaching:
the training pipeline for the next generation

Andrew Forbes
Further frontiers & future vision

Registration is essential to attend in-person. This event will also be streamed via Zoom.
